

Commercial Fragrancing for the Modern World

# HYscent Catalog

---

Made in the USA

---

**HYscent enhances the environmental experience by providing innovative dispensing technology, delivering beautiful fragrances for everyone.**

## **Caring for our Environment and You**

*No harmful chemicals*

*No allergic reactions*

*No toxicity*

A typical HYscent fragrance could have as many as 50 different ingredients. HYscent Perfumers combine fragrance ingredients to create a scent. They select from our approved palette of materials, which can include ingredients that are:

- Naturally occurring, meaning extracted from plants and flowers
- Nature-identical, meaning synthetic materials used to take the place of naturals where allergens within the naturals can cause serious human side effects. In addition, they are used to provide consistent quality and safety, but are made in a laboratory

## **Safety & Quality Assurance**

For the HYscent fragrance ingredient palette, we require that any fragrance materials our perfumers use meet the Research Institute for Fragrance Materials (RIFM) and the International Fragrance Association (IFRA) standards. HYscent perfumers adhere to the standards set by the Research Institute for Fragrance Materials (RIFM), which has the most comprehensive database worldwide of safety evaluations for fragrance materials. It's an industry organization, and it uses an independent expert panel. Industry safety standards are maintained by IFRA, using data from RIFM. We require our fragrance suppliers to abide by IFRA's Code of Practice and its standards, which take into account numerous factors including chemical composition, variety of use, volume of use, usage concentration and more. The IFRA standards currently restrict the use of more than 170 substances due to their chemical profile.

**Made in the USA**

## Other Brands vs. HYscent

The absence of propellants, harmful solvents and chemicals, make HYscent the “eco” solution for your fragrancing needs.

Criteria	Aerosol/Wick/Gel	HYscent
Product material	Liquid propane gas	Dry fragrance
Harmful ingredients	Alcohol, acetone, solvents	None
Skin irritation	Yes	None
Respiratory irritant	Yes	No
Fragrance properties	Solid particulates in the form of spray or mist will drop to the floor creating a slip hazard and possible staining of the wall and floor	Dry fragrances spreads evenly

HYscent is in widespread use in hospitals, medical facilities and retirement communities. HYscent the eco-conscious and responsible solution for odor control and fragrancing the environment.

### HYscent's proprietary malodour counteractant ODORAXE

Odoraxe distorts malodour molecules. The malodour molecule no longer has the precise characteristics to interact with the receptor site.

# Our Fragrance Families

**It has been proven that essential oil fragrances can affect mood, boost productivity, and create a desired atmosphere.\***

\*Entrepreneur.com (<https://www.entrepreneur.com/article/224575>)

\*Scientific American (<https://www.scientificamerican.com/article/do-scents-affect-peoples>)

**A happier space...** at the heart of HYscent fragrances are pure essential oils with aromatherapeutic benefits.

## Fragrance Notes

T = Top  
M = Middle  
B = Bottom

## Key

The intensity of the fragrance is reflective in the individual properties of the natural oils.

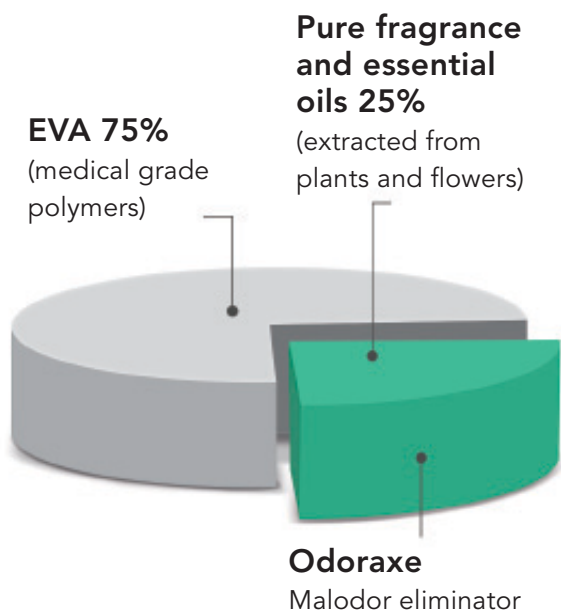

## Fragrance Intensity

Caring for the environment... and you

### HYscent Refill Cartridge Components

#### 1. Made in USA

HYscent refill cartridges are made in the USA using APAT (Advanced Polymer Absorption Technology). Proprietary manufacturing techniques ensure the highest quality and consistency

#### 2. Healthy Fragrances

For the HYscent fragrance ingredient palette, we require that any fragrance materials our perfumers use meet the Research Institute for Fragrance Materials (RIFM) and the International Fragrance Association (IFRA) standards.

#### 3. Natural Essential Oils

HYscent proprietary "time release" refills with Odoraxe, are made from a blend of medical grade polymers infused with pure fragrance and essential oils extracted from plants and flowers.

# heritage

Your 'go-to' collection of familiar and comforting scents featuring a broad range of classic favorites to suit any mood and refresh any space

Size	114mm x 81mm
Battery type	2 x C-cell
Colors available	White & Black

## SOLO Portable Fragrance Diffuser

Portable, sleek and very effective, the HYscent Solo is the go to solution to bring the highest quality fragrancing to smaller spaces. Not only can the Solo be mounted on a wall, but its portability offers unlimited options for use... From the restroom to the office cubicle, the Solo is the most versatile of fragrancing devices.

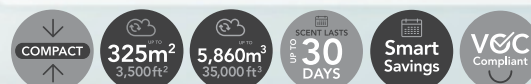

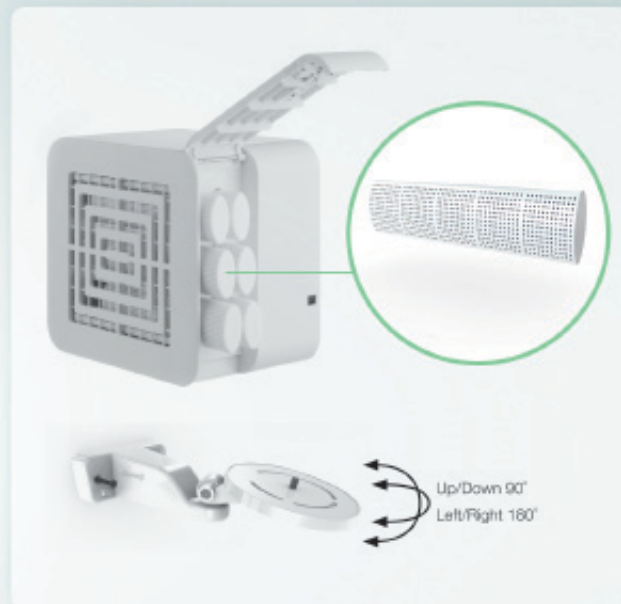

Size	240mm x 81mm
Battery type	2 x D-cell
Colors available	White & Black

## DUAL Powerful Fragrance Diffuser

The modern and sleekly designed Dual can easily be wall mounted or displayed on a desktop stand as a welcome addition to a room's decor. The ultimate solution for overcoming numb nose to the same fragrance. Use the alternating setting feature to regularly create a fresh scent. Use the dual setting to create a unique blend of two HYscent fragrances delivering your own custom aroma.

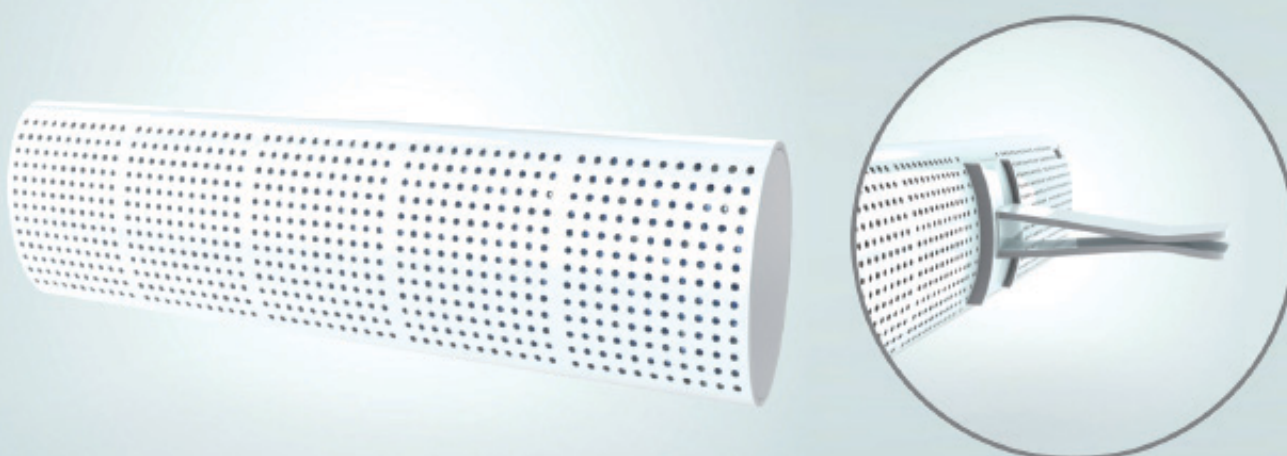

Size	617mm x 406mm x 554mm
Power	110V/220V
Colors available	White & Black

## STEALTH Ultimate Fragrance Diffuser

Six refill ports and seven fan speeds offer the most affordable and effective solution for fragrancing large and challenging spaces. Mount the Stealth on the wall using the multidirectional wall mount (sold separately), or on the floor using the integrated flip stand which aids in directing the fragrance release towards the center of the space. The Stealth is your solution for large areas in: hotels; offices; condominiums; hospitals; nursing homes; long-term care facilities; locker rooms; large stadium restrooms and trash compactor rooms... In fact, it is your solution for any large space you can think of!

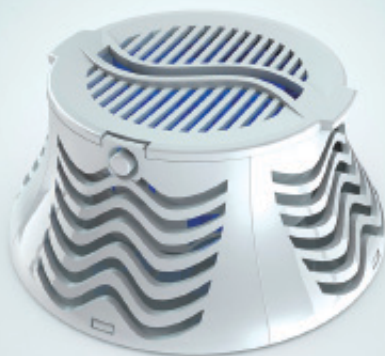

Size	23mm x 44mm
Battery type	None
Colors available	White

## INVENT A Simple, Battery-free Odor Control Solution

This fragrance diffuser also doubles up as the Stealth refill cartridge.

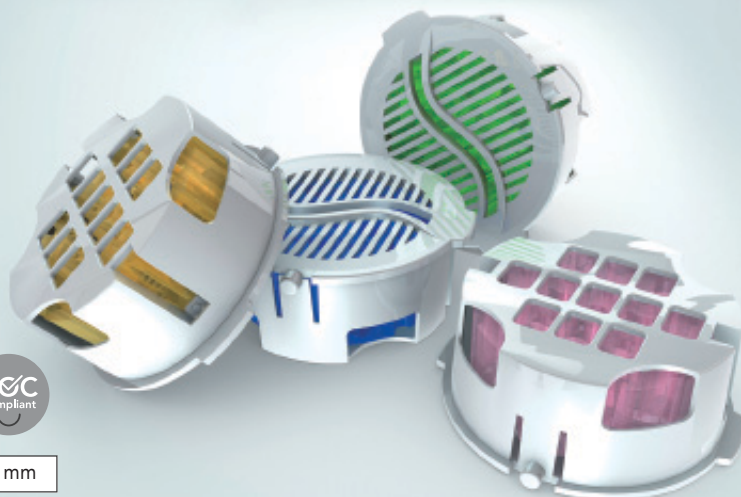

Go green and keep it simple with the Hyscent InVent, an odor control device that works with your existing HVAC airflow. Just clip the InVent into a ceiling vent in the space you'd like to fragrance to generate airflow through the unit. In minutes, notice the pleasing aroma of one of Hyscent's original fragrances. The sleek and aesthetically appealing design creates a virtually seamless appearance.

Size	102mm x 43mm
Battery type	None
Colors available	White & Black

## POD Ecological Fragrance Diffuser

The HYscent Pod's four-quadrant vent holes ensure that the device achieves an optimal 360 degree fragrance dispersion. Without the use of aerosols, solvents or batteries, the HYscent Pod is one of the greenest – and most effective devices on the market. From the office cubicle to hotel guest rooms, the Pod is the ecological answer to fragancing any personal area.

Size	34mm x 81mm

## REFILL CARTRIDGES For SOLO/DUAL/POD Dispensers

HYscent refill cartridges are made in the USA using APAT (Advanced Polymer Absorption Technology). Proprietary manufacturing techniques ensure the highest quality and consistency. Fragrances can last up to 60 days according to user settings.

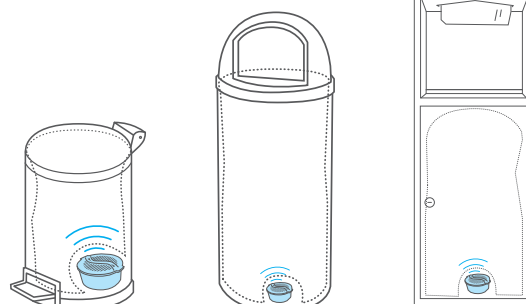

### Reuse Your Refills - No More Trash Smell!

When it's time to change the refills in your Solo/Dual, DON'T throw them away! Make the most of our refills by placing a used refill inside a trash bin to remove malodor and suffuse with HYscent essential oil based fragrance!

#### Step 1

Remove USED refill cartridge

#### Step 2

Place refill in any trash bin below the bin liner. The refill cartridge will continue to release its fragrance for weeks and weeks

Size

148mm

## VORTEX Urinal Screen

Designed for ultra low splashback, VORTEX is the urinal screen with proprietary malodor counteractant formulation lasting up to 30 days. Unlike liquid and water based gels, the fragrance release from the Vortex is unaffected by humidity and has a much wider functional temperature range.
