FAST, EFFECTIVE AND DISCREET FRONT OF HOUSE FLY CONTROL

Illumé Alpha and **Illumé Galaxy** replicate the appearance of a modern lighting fixture whilst providing excellent insect attraction.

Genus® | ILLUMÉ α

Illumé Alpha and Illumé Galaxy are designed to offer discreet insect control for all public sensitive front of house locations such as dining areas, cafés and bars.

The Illumé range uses well-proven ultraviolet (UV) light technology to attract flying insects into the body of the unit.

Once attracted to the unit, the insects are caught on a specially formulated HACCP compliant glue board. The glue board is hidden from view within the Illumé's body and can be quickly and easily changed as required.

Illumé Alpha and Illumé Galaxy are available in a Black, White or Stainless Steel finishes to suit any décor. The unit can be hard wired or alternatively a mains lead and plug is supplied to facilitate easy installation.

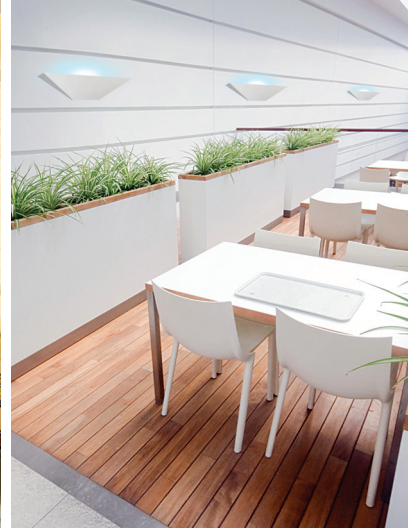

FEATURES AND BENEFITS

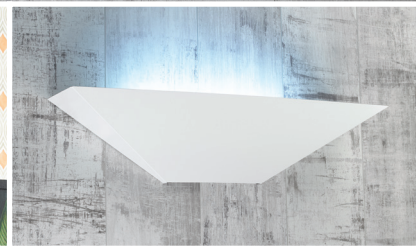

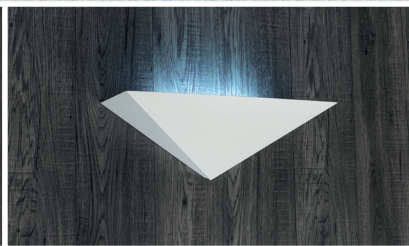

- Mimicking the appearance of a modern wall light, the Illumé Alpha and Illumé Galaxy are perfect for fly control in sensitive front of house locations
- Illumé Alpha is available with 2 x 15 W UVA lamps and the Illumé Galaxy is available with 2 x 25 W UVA lamps, which provide fast flying insect attraction
- Available in Black, White or Stainless Steel
- Large and discreet HACCP compliant glue board catches all flying insects
- Electronic ballast engineering for greater power efficiency and reduced running costs
